10. **Keywords:** regeneration, training, adaptive biological performance, overcompensation

**Abstract.** Coaches and athletic training professionals must continually seek ways to enable athletes to overcome limits and to increase perfor-mance. One of the most effective methods is rebuilding. Coaches need to understand and contribute actively to the pro-cess of restoration, for it to become an important part of your training. There are few coaches that, in parallel with the in-creasing demands of stimulus intensity and preparation, give equal care and recovery after workouts and races.

**COLOR THERAPY - Maria Florintos**
11. Key words: color, influence the flow, effect, stimulant

Abstract. It has been known for a long period of time that color plays a major role in setting up a particular or state of mind. Color does affect one’s feelings, moods, and emotions. Color is one of the languages of the soul, just look at inspired or meditative paintings. They influence our mood and emotions. They have their impact on our sense of well-being or uneasiness. Using and avoiding certain colors is a way of self-expression; it sheds light on our personality. Colors affect our way of perception (light colors make a space look big, a high ceiling looks less high when painted in a dark color etc.). Colors have a symbolic meaning which is immediately recognized by our subconsciousness. It must be said that not all colors mean the same to all persons and all cultures. They influence the flow and amount of energy in our bodies. Colors tell something about biological attraction and sexual availability.

SPORT AND RELIGION IN THE MIDDLE AGES - Dumitru Manea

12. Key words: sports, Christian religion, body, soul

Abstract. There are theories that make sport antithetical to Christianity, arguing that under the principles of Christianity, they would be incompatible. This article aims to show that these theories are simply speculation and not fundamentalist atheist positions that contradict, in fact, the very essence of the Christian religion, that the body is the temple of the spirit and the material support of the soul.
